

DENVER CRIME LAB

CITY OF DENVER

The Denver Crime Lab is a forensic science facility that provides scientific expertise to law enforcement agencies and the criminal justice system. H2I Group worked with the city of Denver to design, build and equip their new crime lab. We partnered with architects SmithGroup and JJR to provide design assistance, laboratory casework, fume hoods, Bio Safety Cabinets, and lab equipment for the Denver Crime Lab. The result is a functional lab space fully equipped to handle the ever-changing needs of a busy metropolitan crime laboratory.
