

## **DENVER MEDICAL EXAMINER** **DENVER HEALTH HOSPITAL AUTHORITY**

The Denver Medical Examiner's Office was relocated to a city-owned warehouse repurposed into a state-of-the-art forensic pathology and death investigation facility. The facility spans 29,000 sf, and features enhanced technologies to ensure high-quality medical examination and investigation services for the City and County of Denver.

H2I Group worked with architect Page Southerland Architects and Construction manager Turner Construction to provide specialized solutions including stainless steel countertops, stainless steel casework, plastic laminate casework, environmental rooms, morgue equipment, autopsy tables, sinks and cadaver storage.
