

ELK RIVER HIGH SCHOOL ATHLETICS

ELK RIVER HIGH SCHOOL

The Elk River School District required an updated athletic space. They needed additional facilities to serve the local areas growing educational, athletic, and recreational programs. A multi-purpose gym was needed to serve various teaching, practice, and competition needs. Some activities that would be involved in this space include basketball, volleyball, lacrosse, golf, softball, baseball, track, and other uses by area teams and clubs. Elk River also wanted to expand its athletic training facilities to meet the conditioning & training needs of its competitive sports teams.
