

MATHEMATICS AND SCIENCE BUILDING **THE BUCKLEY SCHOOL**

H2I Group provided plastic laminate casework and fume hoods for the new Mathematics and Science Building at The Buckley School. The Buckley School is a Private K-12 School in Sherman Oaks, California that has been recognized as one of the best private schools in the Los Angeles area.

The Buckley School's new Mathematics and Science Building was designed to accommodate the school's growing STEM programs. The building houses classrooms and laboratories for Biology, Chemistry, Physics, Life Sciences and Physical Sciences.

The result was a LEED Silver certified space that improved the learning environment for students by providing them with a state-of-the-art facility that rivals many collegiate laboratories.
