

INDIAN CREEK SCHOOL DISTRICT WINTERSVILLE, OHIO

H2I Group has worked with the Indian Creek Local School District for many years. H2I Group brought together different manufacturing partners and provided telescopic gym bleachers, basketball backstops, video screens and shot clocks, wrestling mat hoists, a motorized flag, motorized curtains for cafeterias, and auditorium seating for the different schools in the district.

These projects were completed during the pandemic which required expert navigation of the supply chain and precise timing. Superintendent of Indian Creek Local School District states that the community continues to "heap praises on our facilities and H2I Group played a critical role in that."
