

TIMNATH JR./SR. HIGH SCHOOL

FORT COLLINS, COLORADO

H2I Group collaborated with Poudre School District in Ft. Collins, CO, to provide Timnath Middle-High School with top-of-the-line interior and exterior athletic equipment. As suppliers of the DeBourgh Lockers brand and an established relationship with the district, we were able to provide a comprehensive indoor and outdoor athletic solutions package that included DeBourgh lockers, Porter gym equipment, Nevco scoreboards, and Sportsfield Specialties outdoor athletic equipment.

Our Rocky Mountain Region and Outdoor Athletics division worked together to ensure that the package was tailored to meet the unique needs of Timnath Middle-High School. This project was also recently awarded H2I Group's Athletic Project of the Year for 2022.
