

## ZIMMERMAN HIGH SCHOOL AUDITORIUM ZIMMERMAN, MINNESOTA

Elk River ISD 728 was looking for Zimmerman Jr and Sr High School to make some improvements to their auditorium. H2I Group worked with them to implement solutions that fit their needs. Our solutions for this project included just under 600 Irwin Citation Auditorium seats as well as the stage flooring system. This project was completed in Summer of 2016 with help from Wold Architects and Engineers and Stahl Construction.
