

ROCKFORD COMMUNITY CENTER ROCKFORD PUBLIC SCHOOLS

H2I Group renovated the Rockford Community Center (RCC), for Rockford Public Schools in Rockford, MN. Over the span of a year, our team oversaw the project from its inception through to completion, handling all aspects including design, scheduling, demolition, concrete preparation, installation, and the final closeout. Initially intended to feature a Robbins Pulastic floor, the scope was expanded following client discussions to include the more advanced Robbins Pro 165 Comfort, reflecting our commitment to quality and the trust our clients place in us. In addition to the floor upgrade, we were also tasked with providing Porter 2080 Center Roll Curtains.

This project showcases H2I Group's comprehensive capabilities in delivering high-end athletic facility renovations, emphasizing our dedication to client satisfaction and project excellence. The RCC now boasts top-tier facilities that benefit both the Rockford community and its students, underscoring the effectiveness and efficiency of our team's approach to project management and execution.
