

## MACALESTER COLLEGE ST. PAUL, MINNESTOA

H2I Group collaborated with Macalester College to deliver a modern locker room upgrade that reflects the college's bold new identity. As part of a recent rebrand, Macalester introduced a new mascot, a Highland Cow, and the updated logo now takes center stage on each custom locker's back cushion. Supplied by Grid, the Ultramat lockers were customized specifically for the space. This project blends durability, function, and school pride, creating a clean, modern locker room tailored to the needs of Macalester College's athletes.
