

NORWALK HIGH SCHOOL NORWALK, CALIFORNIA

H2I Group provided complete athletic equipment solutions for the new Norwalk High School Athletic Facility in Norwalk, California. Working with Huckabee and Erickson-Hall Construction, H2I Group provided high-performance products designed to support a wide range of school athletics. The facility features basketball backstops, volleyball and badminton systems, wall padding from Draper, telescoping bleachers from Interkal, scoreboards and shot clocks from Nevco, metal lockers from Penco, ballet bars from Alvas, and a mat hoist from Jaypro.

All gym systems are integrated through Draper's Smart Gym control system, allowing staff to operate equipment efficiently and safely. HHI's Union Labor team completed the installation, delivering a safe, functional space built to support a full range of athletic programs.
