

TECH-ED & STEM SOLUTIONS

ABOUT US

H2I Group is a specialty subcontractor with over 100 years of experience, partnering with top-tier brands of high-quality tech-ed products. We provide purchasing, installation, and support services for technical education environments. We understand that tech-ed spaces need to be highly specialized and designed to support hands-on learning and STEM/STEAM-focused activities. That's why we collaborate closely with you throughout the process—from initial concept to final completion—to ensure your products meet the unique demands of your curriculum and goals.

Our experience, training, and continuous research into the best products and practices have made us a trusted partner for educational institutions and makerspaces across the Midwest.

PRE-PURCHASE & BUDGETING

Our Solutions Specialists help with specifications, budgeting, and concept design to find the best solutions for the project.

PROJECT MANAGEMENT

Our dedicated Project Managers monitor all aspects of the project, making sure it follows the agreed-upon timeline.

PRODUCT SOURCING & PURCHASING

H2I Group's national footprint, along with our multiple buying agreements, allows our purchasing agents extensive supply chains.

SCHEDULING

Detailed schedules are developed early so that the team has a clear understanding of milestone dates to ensure a successful partnership.

INSTALLATION

H2I Group provides high-quality professional installation services with an experienced, efficient, and safe team of installers.

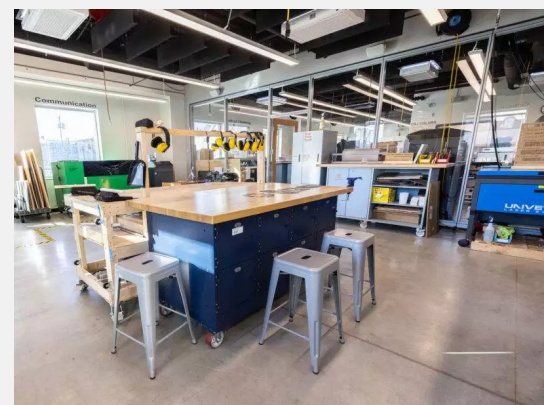

SERVICE AND MAINTENANCE

We provide unparalleled service, maintenance, and training for our tech-ed products.
