

ACADIA BEHAVIORAL HEALTH HOSPITAL WESTMINSTER, COLORADO

H2I Group partnered with Stengel-Hill Architecture and JE Dunn to deliver the Acadia Behavioral Health Hospital, a specialized healthcare environment. The client needed functional, code-compliant spaces that balanced a calming, therapeutic atmosphere with the daily demands of a behavioral health facility, including durability, cleanability, and safety-driven detailing. Through proactive coordination and careful problem-solving, H2I Group managed detailed scope requirements and evolving field conditions while keeping the schedule and budget on track. H2I Group provided millwork and casework, solid surface and quartz, chair rail, outdoor and gym equipment, and operable partitions for a space that supports the daily clinical and operational needs of a modern behavioral health hospital.
